**COME OUT AND SHOW YOUR SUPPORT FOR THIS LOCAL FAMILY**

This event has been organised in support of our son Cooper Sinclair. Cooper has Dravet Syndrome, a rare and catastrophic form of uncontrollable epilepsy. There are only about 150 cases diagnosed in Australia and New Zealand. Seizures, sleepless nights, medications, countless trips to emergency, missed days at school and surgery have all been normal for him over the past 5 years. He has countless seizures, behaviour and developmental delays, movement, speech and growth issues. His body is constantly at battle with itself. He has a higher chance of SUDEP (sudden unexplained death). This Syndrome will affect him his entire life. Cooper will always need care, he will never drive, he will never be an independent adult.

**Our goal is simple. We want to give this strong, funny and affectionate boy the best life possible. By making the funds available for ongoing costs associated with his 24/7 care, medications, medical expenses, therapies and equipment we can help support his quality of life.**

**DONATIONS WELCOME**
