

*Ecuador – Girl with
insulin donated by
Insulin for Life*

Saving lives around the world

Insulin for Life

is a not-for-profit organisation that collects and distributes in-date and no longer needed insulin, test strips and other diabetes supplies which would otherwise be wasted, including from diabetes clinics. These are sent to recognised organisations and with agreed systems.

Insulin for Life Global is a network of independent not-for-profit organisations in several countries which collect and distribute supplies in the same way.
